OUDINOT, FRANCIS A. RD. SUP. LAHAINA, TO MIN OF INT.

CLASS INT. DEPT. MISCL. MATTERS YEAR 1859 MONTH July 16th.

Acknowledges having received instructions that he put large stpnes,- do not known where he could get it,- unless he be allowed to get some from land of the Governess of Hawaii, of whom he is agent, that the retaining wall that he saw was only an experiment to see how it would resist the sea, that it was his intention to build it more solid, say 12 to 15 feet thick.
